

Wilson Elementary Physical Education

It is such a pleasure to welcome all the wonderful students back to school (Online) this year. The PE department at Wilson School has two teachers, Mrs. Denman and Mr. Robertson. We are looking forward to getting to know your children and having them in PE this year. PE is going to be a little different this year. Students will have the opportunity to come to school at scheduled times for their PE class in person one day per week. This is completely voluntary. Their teachers will have the schedules for you or you can check my Google Classroom. Your student cannot participate at a different scheduled time than what their teacher has. The other days I will have a Google classroom activity that is voluntary also.

If your student attends their scheduled in-person PE class, please have them come to the back gate in the bus parking lot. This is also where they will be picked up. They will then be required to wash their hands. They will not need masks since we will be outside, but please have them bring a mask for if they have to go inside the school building. If they would like to participate in PE with a mask on that is fine too. It would also be a good idea for them to bring a water bottle. Our activities will take place outside per the state's guidelines right now.

The goal of Elementary Physical Education at Wilson School is to teach students to develop healthy living habits that will last a lifetime. We accomplish that by having students participate in a wide variety of activities, sports, and challenges that will increase their physical, social, and mental abilities, as well as teamwork and cooperation skills. We will provide a safe, fun, and motivating class that will encourage all students to want to participate, have fun and try their best.

PE Classroom Code: e3d423i

If you have any questions, please reach out to me. My email is jldenman@gusd.org.

Sincerely,

Mrs. Denman & Mr. Robertson
